

Smart City Solutions

 INFINITUS

What is a smart city?

A smart city uses digital and telecommunication technologies to make traditional networks and services more efficient for the benefit of its inhabitants and business.

Outdoor digital signs in smart city concept?

Outdoor digital signs represents the backbone of the digital city. The main function of digital signs is to improve information access to citizens and tourists on one side, and municipality stakeholders on the other.

Innovative outdoor LCD kiosk solutions are based on any combination of interactive signage, that can be equipped numerous add-ons.

 Touch screen	 IP/USB camera	 Wi-Fi hotspot	 Wi-Fi access	 Ultra high bright LCD upgrade	 Front glass
 Custom color option	 Anti-graffiti coating	 UPS	 Proof of play	 Ambient light sensor	 NFC reader
 Barcode reader	 Speakers	 Microphone	 4G access	 AED compartment	 Sidetouch screen monitor
 Urban bench with wireless mobile chargers	 Content Management System	 Hand Sanitizer	 Environmental Sensors	 Charging Station	and others ...

Smart city digital signs can:

- Generate revenues with sales of services,
- Generate revenues with sales of advertising,
- Share informative and entertaining contents,
- Educate about public issues,
- Collect environmental data,
- Act as emergency point with its displays,
- Serve as lifesaving point with integrated health equipment,
- Count a number of passers-by

Meet imotion smart city solutions:

Based on more than 15 years of experiences, we designed four standard smart city solutions. All designs can be fully customized, with custom designed enclosure and with numerous add-ons.

imotion URBAN

imotion CHARGE

imotion BOOTH

imotion SHELTER

imotion URBAN
